

ARCHIBUS SYSTEM ADMINISTRATION COURSE

Duration: 03 days

INTRODUCTION

This three-day course covers changing the ARCHIBUS user interfaces - the Process Navigator in the Overlay for AutoCad, Enterprise, and Web Central, the Domain Navigator, and the Hotlist. It also covers creating and altering view files, understanding properties and methods of the view object, installing and upgrading, implementing security, and changing control information in schema tables with and without affecting the structure of the database. The course covers both ARCHIBUS Enterprise and Web Central.

PREREQUISITE

ARCHIBUS Fundamentals Curriculum is required.
